A SIMPLE RANGE
FOR ADVANCED PERFORMANCES

New TV SOCKETS

- Optimum performance
- New safe and intuitive wiring system
- Simple: only one product reference for each function

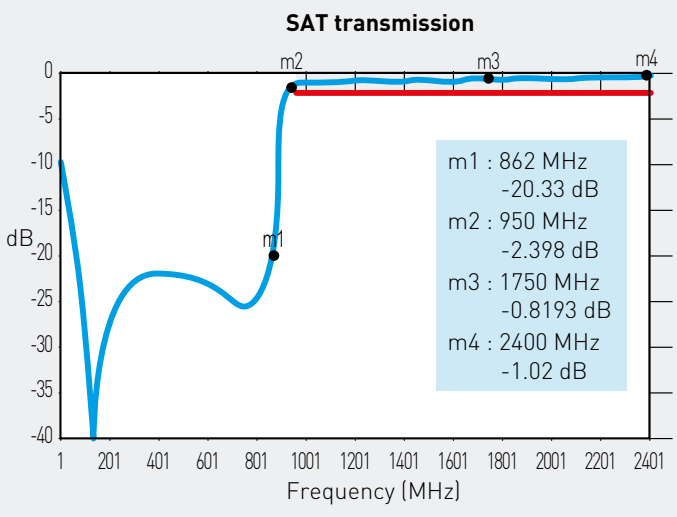

OPTIMUM PERFORMANCES

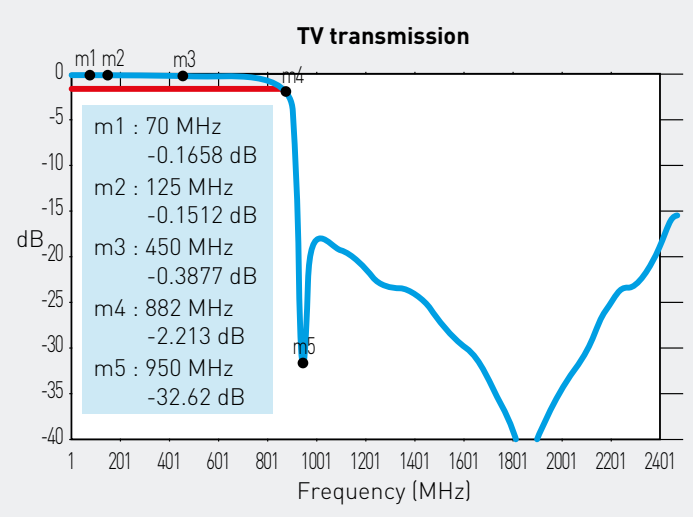

Low attenuation, optimised over the requirements of the EN50083-4 standard (<1 dB in DVBT and Satellite Band).
 Suitable also for the new television devices in UHD (Ultra High Definition).
 Reduction of the amplification required for the operation.

Performance graphs

IN-SAT

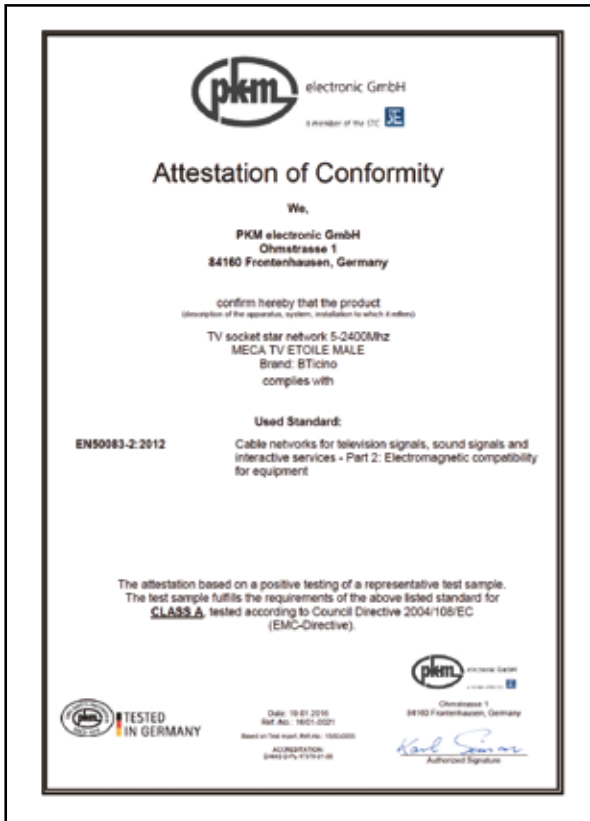

IN-TV

CONFORMITY

All new TV jacks complies with reference European regulations (EN 50083-2, EN 50083-4) and have successfully passed the certification tests conducted by an independent external body.

Conformity certificate for all the sockets of the range

NEW WIRING SYSTEM

- The new wiring system of the BTicino TV sockets allows an intuitive connection thanks to the complete opening of the clamp and the direct display of the cable insertion zone.
- Improved efficiency thanks to the clamp shielding in Class A (thanks to the Class A shielding of the clamps).

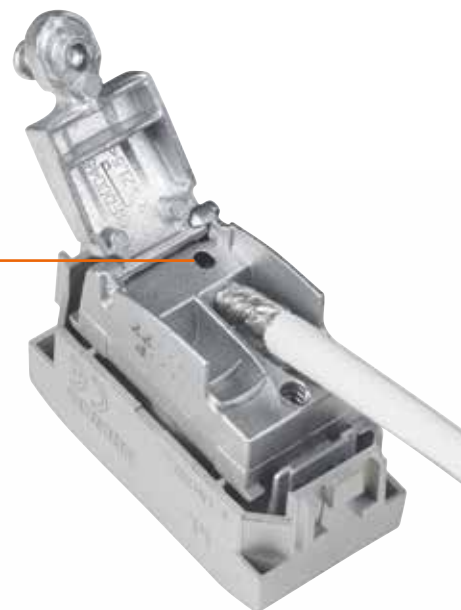

Safe

thanks to a cable holding higher than 12 Kg

If the copper core of the coaxial cable is visible, the contact is sure.

New TV SOCKETS

ONLY ONE REFERENCE FOR EACH TV SOCKET OUTLET

Simplification

for all BTicino ranges, the aesthetic covers are supplied with the engine.

Selection guide

1. Choose your wiring devices offer
2. Choose the function (e.g.: star socket, passthrough socket, satellite socket, etc.)

Done!

For Axolute and Livinglight, available in 3 different finishes (white, tech, anthracite), the color of the mechanism is no longer a problem.

The product reference is always the same!

1 PRODUCT
REFERENCE

■ A COMPLETE RANGE

The **new TV sockets offer** is perfectly suitable for different installation modes of a TV system (single home or apartment block) and for the different wiring modes (star or passthrough installations).

Star TV and SAT installation

Typically used in new installations.

Installation of passthrough and terminal sockets

Often used in refurbishments of old systems.

681574	Vela
	as above - 2 modules
LN4202M2D	Livinglight

Item

PASSTHROUGH TV SOCKET

Passthrough coaxial socket, -14dB attenuation, for centralised TV systems, also remote powered, and centralised satellite systems with current and signal transfer for channels selection - shielded connection clamps with captive screws - Ø 9.5 mm; male connector - supplied in package common mechanism and, where provided, with front covers in different aesthetic finishes - 1 module
